## Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholder of  
Tradition (Global Clearing), Inc.

We have audited the accompanying statement of financial condition of Tradition (Global Clearing), Inc. (the Company), (a wholly-owned subsidiary of Tradition Asiel Securities Inc.) as of December 31, 2007. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above present fairly, in all material respects, the financial position of Tradition (Global Clearing), Inc. at December 31, 2007, in conformity with accounting principles generally accepted in the United States.

**Tradition (Global Clearing), Inc.**  
(A wholly-owned subsidiary of Tradition Asiel Securities Inc.)

**Notes to Statement of Financial Condition**

December 31, 2007

**1. Organization**

Tradition (Global Clearing), Inc. (the Company) is a Delaware corporation and a wholly-owned subsidiary of Tradition Asiel Securities Inc., a wholly-owned subsidiary of Tradition (North America), Inc. (TNA), which is in turn a wholly-owned subsidiary of Compagnie Financière Tradition, a company organized in Switzerland.

The Company is a registered broker-dealer and has presently ceased all operations but has continued its compliance with all the rules and regulations required to maintain its registration with the Securities and Exchange Commission (SEC) and the Financial Industry Regulatory Authority.

**2. Significant Accounting Policies**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Management believes that the estimates utilized in preparing the financial statements are reasonable; however, actual results could differ from those estimates.

**3. Related Party Transactions**

TNA provides various services to the Company and in turn charges a general and administration fee annually. This amount was fully paid in 2007.

**4. Net Capital Requirements**

The Company is subject to the SEC's Uniform Net Capital Rule (15c3-1) (the Rule), which specifies, among other requirements, minimum net capital requirements for registered broker-dealers.

The Company elected to compute its net capital under the alternative method permitted by the Rule, which requires the Company to maintain minimum net capital, as defined, of \$250,000.

Tradition (Global Clearing), Inc.  
(A wholly-owned subsidiary of Tradition Asiel Securities Inc.)

Notes to Statement of Financial Condition (continued)

**4. Net Capital Requirements (continued)**

The Rule provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital could be less than 120% of the minimum net capital requirement. In addition, certain advances, payments of dividends and other equity withdrawals are subject to certain notification requirements and restriction provisions of the Rule. At December 31, 2007, the Company had net capital of approximately \$2.1 million, which was approximately \$1.8 million in excess of its required net capital of \$250,000.

The Company does not carry the accounts of customers, and accordingly, is exempt from SEC Rule 15c3-3.

**5. Estimated Fair Value of Financial Instruments**

SFAS No. 107, *Disclosure about Fair Value of Financial Instruments*, requires the disclosure of the fair value of financial instruments, including assets and liabilities recognized in the Statement of Financial Condition. Management estimates that the fair value of financial instruments recognized in the Statement of Financial Condition approximates their carrying value, as all financial instruments are short-term in nature.

**6. Concentration of Credit Risk**

At December 31, 2007, the financial instruments that potentially subject the Company to concentration of credit risk are primarily cash, which is on deposit with a major financial institution that is insured up to \$100,000 by the Federal Deposit Insurance Corporation.
